Subject: Application for Senior Software Developer Position

Dear Hiring Manager,

I am writing to express my interest in the Senior Software Developer position at Staunch. With over 5 years of hands-on experience in full-stack software development, strong leadership in agile teams, and a passion for delivering high-quality code, I am confident in my ability to make a significant contribution to your development team.

Throughout my career, I have worked extensively with technologies such as JavaScript, React, Node.js, and MongoDB, and I have led multiple projects from inception to deployment. My recent role involved designing scalable backend architectures, optimizing frontend performance, and mentoring junior developers. I take pride in writing clean, maintainable code and continuously improving systems and workflows.

What excites me most about this opportunity at Company Name is your commitment to innovation and user-centered design. I am eager to bring my expertise in software development, problem-solving, and team collaboration to help drive your products forward.

Thank you for considering my application. I have attached my CV for your review. I would welcome the chance to discuss how I can contribute to your team in more detail.

Sincerely,
SALMAN AHMED
